TRACKSEPARATION PROJECT SUBJECT AT BOARD MEETING

Track Agreement Be Included in Resolution.

Setting forth proposals relative to track separation that a resolution to be adopted by the board shall hold up for action by the succeeding board any future estimates of cost. New York Central officials, meeting with the board of public works at the regular business meeting of that body last evening, featured discussions on that question by requesting the incumbent board to include in its resolution an agreement for the building of a maximum of six tracks. Original plans called for the present trackage through the city of that railroad, three in number.

Att'y Schuyler C. Hubbell, representing the railroad company, stated the company's position on preparing the record to show agreement for POLICE LAND TWO the eventual development of the city and the railroad facilities as demanded in the years to come. The board took the proposals under conederation to be approved at a later
